ETALON EQUINE GENETICS is title sponsor of the 12th WBFSh International Young Breeders World Championships 2026 in Celle

Celle, December 2025 – ETALON EQUINE GENETICS is the title sponsor of the 12th WBFSh International Young Breeders World Championships, which will take place from July 16 to 19, 2026, at the Lower Saxony State Stud in Celle. With this sponsorship, the internationally active company is demonstrating its commitment to promoting the next generation of horse breeders.

"ETALON's commitment to supporting the WBFSh International Young Breeders World Championships reflects our belief in the next generation of equine professionals — where science, passion, and tradition unite to shape the future of horse breeding." says Christian Schacht (ETALON), delighted with the partnership.

The International Young Breeders World Championships are considered the most important event for young talent in the international young breeders' scene. Young people from over 20 nations compete in the disciplines of theory, conformation assessment, free jumping, and in-hand presentation. The venue is the traditional Lower Saxony State Stud in Celle, which has been closely associated with the development of Hanoverian breeding for almost 300 years and is considered a symbol of quality, innovation, and tradition in horse breeding.

With its commitment as title sponsor, ETALON EQUINE GENETICS underscores its close connection between modern genetic research and practical horse breeding. The company sees the promotion of young breeders as a key contribution to the sustainable development of the industry.
